

SCIENCE & TECHNOLOGY: TO GO WHERE GOD LEADS US

“Do you not know that your body is a temple of the Holy Spirit within you, whom you have from God, and that you are not your own?” 1 Corinthians 6:19

OVERVIEW

When pursuing the work of science, technology, and mechanics, we must remain centered on who we are, where we come from and the moral guidelines written in our hearts. That is why Catholics place tremendous value on each and every human person from conception until natural death. We believe that all life is sacred and must be protected; not created for experimentation or exploitation for another's benefit.

DISCUSSION QUESTIONS

- How does forming our conscience help us determine what actions are morally right or wrong?
- How does loving God and our neighbor bring us closer to the Kingdom of God?
- Why is opposing evil and doing good essential obligations for Catholic?
- What changes in your own life can you make to love God and love neighbor better?
- What changes in your own life can you make to love God and love neighbor better?
- If we are made in God's image, why do some people and some institutions commit morally wrong actions?
