# How Can An IndeQuest Nurse Case Manager Help You?

## NAVIGATION OF THE HEALTH CARE SYSTEM

- Find the appropriate specialists for you or a loved one
- Schedule physician appointments and attend them with you
- Interpret and discuss physician recommendations and options

- Research further medical treatment options
- Negotiate with providers on your behalf
- Secure necessary documents for insurance reimbursement as applicable
- Locate the best products and services for your specific needs
- Assist with medical records management

## MEDICAL INSURANCE COORDINATION

- Identify what your insurance will cover (i.e., wheel chair, ramps, safety rails, medications, etc.)
- Optimize benefits with your medical insurance provider
- Assist and follow up with claims submission process

## DIRECT CARE COORDINATION

- Coordinate home health care services and therapy visits
- Procure home medical equipment as needed
- Arrange transportation services to and from medical appointments

## COMPLIMENTARY SENIOR LIVING PLACEMENT SERVICES

- Our team of RN Case Managers will find the best community for you or a family member at no cost
- An initial clinical evaluation will ensure the communities we recommend will be able to care for your every need
- Our network of facilities allow us to find the community that best suits you financially

## HEALTH COACHING AND EDUCATION

- Help you understand your condition and treatment options so you can make informed decisions about your care
- Explain medications, disease management and available community resources

## MEDICATION SET UP

- Review medications with respect to physician orders and properly set up medications to be dispensed daily

## **About IndeQuest**

IndeQuest is a geriatric nurse case management company that specializes in the management and coordination of the geriatric health care needs of our clients. Our highly qualified nurses are certified case management specialists with nursing skills encompassing the entire spectrum of health care. We have professional nurse case managers on staff throughout **Florida, Michigan** and **Ohio** to assist you or your loved one with health care concerns. Our headquarters resides in Plymouth, Michigan.

## **Nurse Case Manager**

A nurse case manager is a professional registered nurse who coordinates and oversees your health care-related issues. As an advocate for your personal health, your nurse case manager is responsible for making certain that all aspects of your care, including insurance coverage, function efficiently and effectively.
